

My Care Record

My Care Record allows health and care professionals directly involved in your care, access to information about you.

Providing you with

**Better co-ordinated
and seamless care**

**Quicker diagnosis
and treatment**

**More time to spend
on clinical care**

**Less paperwork
and less repetition**

**Fewer unnecessary
clinical tests**

**More accurate
prescriptions**

**Safe and secure
decision-making**

My Care Record has been reviewed in line with current legislation. Full details on how we manage your information will be available on our website www.mycarerecord.org.uk as it becomes available.

What is *My Care Record*?

The people caring for you need access to your health and care record in order to make the best decisions about your diagnosis and treatment. This could include GPs, hospital-based clinicians, nurses, health visitors and social workers.

For this to happen more quickly and to improve the care you receive, a process has been put in place using existing computer systems. This allows your information to be accessed by health and care clinicians and professionals within local health and care organisations that are providing you with care.

This does not share your record, but provides health and care clinicians and professionals access to view information relevant to your care and treatment.
